TOWARDS A MORE INCLUSIVE SOCIETY

Invitation to Supporters

Make a Difference.

Our supporters and exhibitors have the opportunity to engage face-to-face with policy makers and leaders in the Autism community to build brand awareness and partnerships with our delegates.

Since the first Canadian Autism Leadership Summit (CALS) a decade ago, a meaningful National Autism Strategy for Canada has been the collective aspiration of more than 200,000 Autistic people and their families, and thousands of organizations, and professionals working in the field.

In March 2023, the House of Commons unanimously passed Bill S-203, “An Act Respecting a Federal Framework on Autism Spectrum Disorder.” We are proud of the significant role the Summit has played in fostering the momentum and cohesion needed to achieve this goal. But bringing the strategy to life—in such a way that it ensures Autistic people in Canada enjoy full rights and opportunities—heightens the importance of unity and collective effort.

We invite you to join us in our movement towards effective, impactful implementation of the National Autism Strategy, and a more inclusive Canada by becoming a Supporter of the 10th Annual CALS. Our exciting agenda focuses on three themes:

Inform. Implement. Innovate.

We will dive further into the development of the National Autism Strategy by exploring the gaps between expectation and reality as the strategy unfolds across Canada.

“From Top to Bottom: how to build Autistic perspectives across your organization,” will explore best practices in creating and flourishing in a truly inclusive workplace.

We will also showcase the groundbreaking work at Autism Alliance of Canada addressing priority areas such as our Adult Needs Assessment, our national research on Waitlists for Autism Diagnosis, and a project redefining autism through an Indigenous lens.

Your support is critical to creating the opportunity for these essential conversations. Support the 10th Annual Canadian Autism Leadership Summit. We look forward to seeing you there!

—Dr. Jonathan Lai, Executive Director, Autism Alliance of Canada

Towards a More Inclusive Society

Autism Alliance of Canada is a pan-Canadian network with a broad and diverse membership of Autistic people and their families and support persons, as well as clinicians, researchers, policy influencers, service providers and organizations from across Canada.

We work together as a shared leadership movement to champion a National Autism Strategy that ensures Autistic people have equal rights and opportunities for full participation and acceptance in Canadian society. We harness the power of collective impact as an inclusive organization whose members, board of directors and staff our commitment to Autistic participation in all aspects of our work.

The annual Canadian Autism Leadership Summit (CALS) is Autism Alliance of Canada's signature initiative.

CALS is a platform where Autistic persons, community leaders, decision-makers, and researchers come together to advance a robust National Autism Strategy, and strengthen our collective voice.

We are committed to centering Autistic perspectives, including those in rural and remote areas of Canada, of underrepresented groups, and of Indigenous communities.

Join a national movement to foster equity, diversity and inclusion for Autistic people in Canada

Testimonials from CALS2023

“

I will never forget this experience.
Meeting fellow minded people and also people who
understand and can relate to us, especially Autistic adults,
it's definitely life changing.

— Reeba Sara Koshy | Autistic self-advocate

The Summit is the work of setting the stage for what the
Alliance should be doing. It is a demonstration of our
commitment to a shared leadership movement. This is not a
couple of people who run the Alliance. This is over 500 people
actively involved across our country with a commitment to
developing a better Canada for Autistic people in this country
and for ending up with a strong National Autism Strategy.

— Margaret Whelan | Member of
Autism Alliance of Canada

“

Today, we are taking another step toward the National
Autism Strategy and helping to address gaps in
knowledge about the needs of Autistic adults in Canada.
We will keep working with all our partners, including
community organizations like the Autism Alliance of
Canada to advance communication-action research in
this area and provide evidence to improve future
pathways of care for Autistic adults.

— The Hon. Jean-Yves Duclos | Former Minister of Health
